QUESTION 1

DRAG DROP

You are assigning record level privileges for Power Apps and Model-Driven Apps.

Which privilege should you use to ensure access for each scenario?

To answer, drag the appropriate privileges to the correct requirements. Each privilege may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Privileges

Append

Share

Assign

Answer Area

Requirement

Privilege

Allow users to grant access to a record they own to other users.

Grant ownership of a record to another user.

Allow the users to associate the current record with another record.

Correct Answer:

Privileges

Answer Area

	Requirement	Privilege
	Allow users to grant access to a record they own to other users.	Share
	Grant ownership of a record to another user.	Assign
	Allow the users to associate the current record with another record.	Append

Box 1: Share

Share - Required to give access to a record to another user while keeping your own access. Which records can be shared depends on the access level of the permission defined in your security role.

Box 2: Assign

Assign - Required to give ownership of a record to another user. Which records can be assigned depends on the access level of the permission defined in your security role.

Box 3: Append

Append - Required to associate the current record with another record. For example, a note can be attached to an opportunity if the user has Append rights on the note. The records that can be appended depend on the access level of the

permission defined in your security role.

In case of many-to-many relationships, you must have Append privilege for both tables being associated or disassociated.

<https://docs.microsoft.com/en-us/power-platform/admin/security-roles-privileges#record-level-privileges>

QUESTION 2

HOTSPOT

A company plans to implement Microsoft Power Platform apps. The company does not plan to use any development tools or plug-ins.

Which actions can you perform?

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Hot Area:

Statement	Yes	No
You can synchronize account information from Dynamics 365 Sales with a third-party database.	<input type="radio"/>	<input type="radio"/>
You can create invoices from orders and then send the invoices to the customer by using a Power Automate flow.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Statement	Yes	No
You can synchronize account information from Dynamics 365 Sales with a third-party database.	<input checked="" type="radio"/>	<input type="radio"/>
You can create invoices from orders and then send the invoices to the customer by using a Power Automate flow.	<input checked="" type="radio"/>	<input type="radio"/>

QUESTION 3

HOTSPOT

A company creates the following Microsoft Power Platform environment to manage a custom model-driven app:

1.

Developer

2.

Production

You have been granted the System Administrator security role to the development environment and a custom security role named Project Team Member to the production environment Instructions: For each of the following statements, select Yes if the statement is true. Otherwise, select No.

Hot Area:

Statements	Yes	No
You will not be able to access the app until the System Administrator security role is assigned to the app in the development environment.	<input type="radio"/>	<input type="radio"/>
You can delete records in the development environment.	<input type="radio"/>	<input type="radio"/>
You will not be able to access the app until the Project Team Member security role is assigned to the app in the production environment.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Statements	Yes	No
You will not be able to access the app until the System Administrator security role is assigned to the app in the development environment.	<input type="radio"/>	<input checked="" type="radio"/>
You can delete records in the development environment.	<input checked="" type="radio"/>	<input type="radio"/>
You will not be able to access the app until the Project Team Member security role is assigned to the app in the production environment.	<input type="radio"/>	<input checked="" type="radio"/>

QUESTION 4

You create a canvas app that allows contractors to submit time they work against a project.

Contractors must be able to use the canvas app to enter time. Contractors must not be able to perform any other actions in the app.

You need to configure permissions for the contractors.

Which type of permissions should you use?

- A. application-level
- B. task-level
- C. record-level
- D. field-level

Correct Answer: D

Field-level security feature to allow more granular control of security at the field level. Incorrect Answers:

C: Record-level privileges that determine the level of access a user has to a specific record or record type.

Reference: <https://docs.microsoft.com/en-us/power-platform/admin/security-roles-privileges>
<https://docs.microsoft.com/en-us/power-platform/admin/wp-security-cds>

QUESTION 5

HOTSPOT

Your company wants to create a help desk system and implement Dynamics 365 Customer Service.

The company has the following requirements:

1.

Provide an application to allow support team staff to chat live with a customer.

2.

Automatically import data from a Microsoft Excel spreadsheet once a day.

3.

Provide a chatbot that can assist customers who need support.

You need to determine which applications to use to meet the requirements.

Which applications should you use? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Requirement	Application
Automatically import data from a Microsoft Excel spreadsheet once a day.	<div>▼</div> <div>Custom Connector</div> <div>Azure Data Lake</div> <div>Power Automate</div> <div>Power BI</div>
Provide a chatbot that can assist customers who need support.	<div>▼</div> <div>Power Virtual Agent</div> <div>Power Automate</div>

Correct Answer:

Requirement	Application
Automatically import data from a Microsoft Excel spreadsheet once a day.	<div> <div></div> <div> Custom Connector Azure Data Lake Power Automate Power BI </div> </div>
Provide a chatbot that can assist customers who need support.	<div> <div></div> <div> Power Virtual Agent Power Automate </div> </div>

QUESTION 6

HOTSPOT

For which scenarios can you use Power Automate?

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Statement	Yes	No
Notify team members when a response is recorded in a form in Microsoft Forms.	<input type="radio"/>	<input type="radio"/>
When email is received, save email attachments to OneDrive for Business.	<input type="radio"/>	<input type="radio"/>
Receive notifications when negative comments about the company are posted on Twitter.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Statement	Yes	No
Notify team members when a response is recorded in a form in Microsoft Forms.	<input checked="" type="radio"/>	<input type="radio"/>
When email is received, save email attachments to OneDrive for Business.	<input checked="" type="radio"/>	<input type="radio"/>
Receive notifications when negative comments about the company are posted on Twitter.	<input checked="" type="radio"/>	<input type="radio"/>

QUESTION 7

Your company has an on-premises Microsoft SQL Server database that contains legacy sales data. You must display information from the database in a new Power Apps app.

You need to establish a secure connection between the database and the app.

What should you use?

- A. Data source
- B. App
- C. Data gateway
- D. Power Automate

Correct Answer: C

For an on-premises database, identify a data gateway that was shared with you (or create one).

Specify Connect using on-premises data gateway, type or paste the server name, the database name, the user name, and the password for the database that you want to use, and specify the authentication type and the gateway.

Reference:

<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/connections/connection-azure-sqldatabase>

QUESTION 8

DRAG DROP

You are creating a model-driven app to track requests for quotes.

The app must use the following navigation structure:

Sales

Sales Log Request for Quotes Projects Settings Customers Product Lines Sales Territories

Administration

User Admin Users Roles

You need to create the app navigation.

Which sitemap component types should you use? To answer, drag the appropriate component types to the correct navigation elements. Each component type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Component types

Area
Group
Subarea

Answer Area

Navigation element

Administration
Sales log
Customers

Component type

Component type
Component type
Component type

Correct Answer:

Component types

Area
Group
Subarea

Answer Area

Navigation element	Component type
Administration	Group
Sales log	Subarea
Customers	Subarea

Reference:

<https://docs.microsoft.com/en-us/dynamics365/customerengagement/on-premises/developer/customize-dev/change-application-navigation-using-sitemap>

QUESTION 9

HOTSPOT

Instructions: For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Yes

No

You can customize buttons and menu items in canvas apps but cannot reorder the screens.

☐
☐

You can add sections to your canvas app forms at any time. Screens can only be added when the canvas app is created.

☐
☐

You can edit buttons in a Power Apps app only by using a third-party application.

☐
☐

Correct Answer:

Answer Area

Yes

No

You can customize buttons and menu items in canvas apps but cannot reorder the screens.

☐
☒

You can add sections to your canvas app forms at any time. Screens can only be added when the canvas app is created.

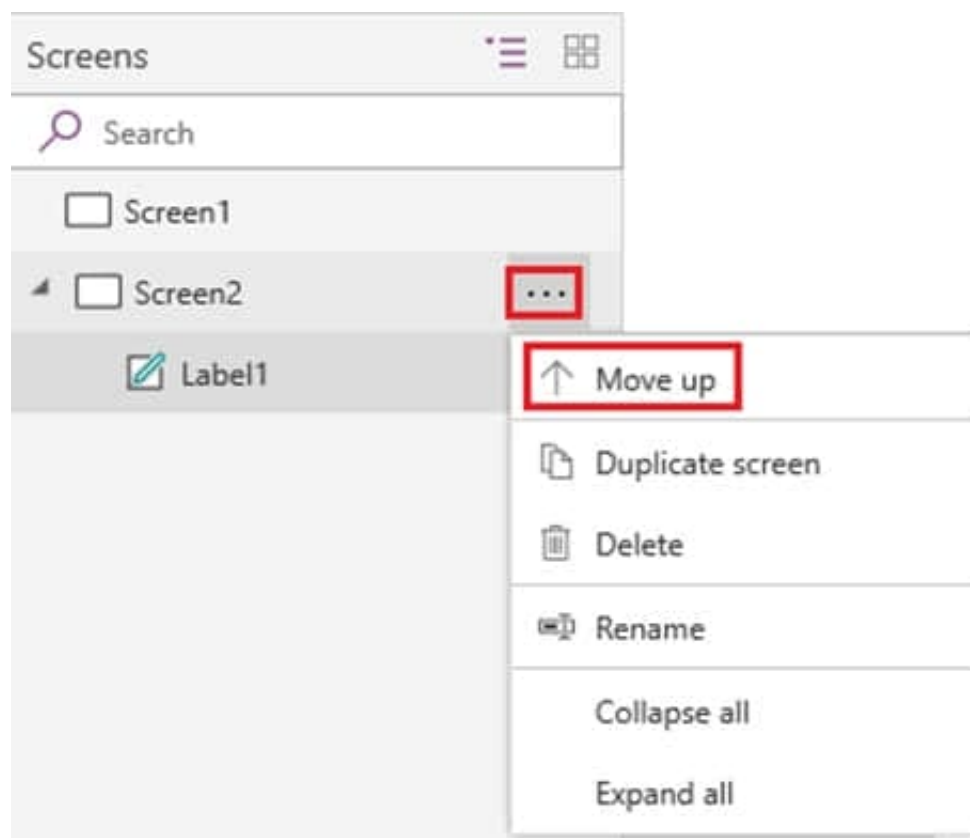

☐
☒

You can edit buttons in a Power Apps app only by using a third-party application.

☐
☒

Box 1: No

You can reorder screens.

In the left navigation bar, hover over a screen that you want to move up or down, select the ellipsis button that appears, and then select Move up or Move down.

Box 2: No

You can add screens to the app after it has been created.

Box 3: No

For example, you can change a button's shape. By default, Power Apps creates a rectangular Button control with rounded corners. You can make basic modifications to the shape of a Button control by setting its Height, Width, and Radius properties.

Reference: <https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/add-screen-context-variables>
<https://docs.microsoft.com/en-us/powerapps/maker/canvas-apps/controls/control-button>

QUESTION 10

DRAG DROP

You plan to create a model-driven app for a company that sells plants and garden suppliers.

The app must meet the following requirements:

1.

Automatically send email to a customer when a record is modified.

2.

Ensure that all sales people follow the same steps when processing sales.

You need to create Power Automate flows for the app.

Which types of flows should you create? To answer, drag the appropriate flow types to the correct requirements. Each flow type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to

view content.

NOTE: Each correct selection is worth one point.

Select and Place:

Flow types	Requirement	Flow type
Button	Send email to customers.	Flow type
Automatic	Ensure that salespeople follow the same steps.	Flow type
Scheduled		
Business Process		

Correct Answer:

Flow types	Answer Area	Requirement	Flow type
Button			
		Send email to customers.	Automatic
Scheduled		Ensure that salespeople follow the same steps.	Business Process

Reference: <https://docs.microsoft.com/en-us/power-automate/flow-types>

QUESTION 11

HOTSPOT

You are creating a Power Virtual Agents chatbot for a company.

Which component types should you use for each scenario? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Hot Area:

Answer Area

Scenario

The chatbot needs to capture of the user id for authentication.

Component type

	▼
Topic	
Entity	
Action	

A customer asks a question that needs to be handed off to a live Customer Support representative.

	▼
Topic	
Entity

QUESTION 12

You need to implement Microsoft Business Applications along with the Microsoft Power platform.

Which three Microsoft products are part of the Power platform? Each correct answer presents a complete solution.

NOTE: Each correct selection is worth one point.

- A. Microsoft Power Apps
- B. Azure Active Directory
- C. Microsoft Flow
- D. Azure Machine Learning
- E. Microsoft Power BI

Correct Answer: ACE

The Power Platform uses PowerApps, Power BI, and Power Automate (previously named Flow) to customize, extend, and build all the apps you need for your business and unlock the potential of Office 365 and Dynamics 365.

Reference: <https://docs.microsoft.com/en-us/learn/powerplatform/>

QUESTION 13

HOTSPOT

You are building Power BI visualizations for a team.

For each of the following statements, select Yes if the statement is true. Otherwise, select No.

NOTE: Each correct selection is worth one point.

Hot Area:

Statement	Yes	No
Power BI can only retrieve data from up to two different sources for each dashboard.	<input type="radio"/>	<input type="radio"/>
Power BI visualizations can be used in canvas apps and model driven apps.	<input type="radio"/>	<input type="radio"/>
Power BI can display charts and list boxes on dashboards.	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Statement	Yes	No
Power BI can only retrieve data from up to two different sources for each dashboard.	<input checked="" type="radio"/>	<input type="radio"/>
Power BI visualizations can be used in canvas apps and model driven apps.	<input checked="" type="radio"/>	<input type="radio"/>
Power BI can display charts and list boxes on dashboards.	<input checked="" type="radio"/>	<input type="radio"/>

QUESTION 14

You are planning to allow members of your team to test your chatbot. You must ensure this is done in a secure way.

A team member named User1 must test the chatbot.

You need to ensure that User1 can complete testing.

What should you do?

- A. Sign in to the authoring environment as the chatbot author.
- B. Sign in to Microsoft Azure DevOps as the chatbot author.
- C. Sign in to Microsoft Azure DevOps as User1.
- D. Sign in to the authoring environment as User1.

Correct Answer: A

QUESTION 15

DRAG DROP

A manufacturing company is evaluating AI Builder.

You need to select AI Builder models to address specified requirements.

Which model types should you use? To answer, drag the appropriate model types to the correct requirements. Each model type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to

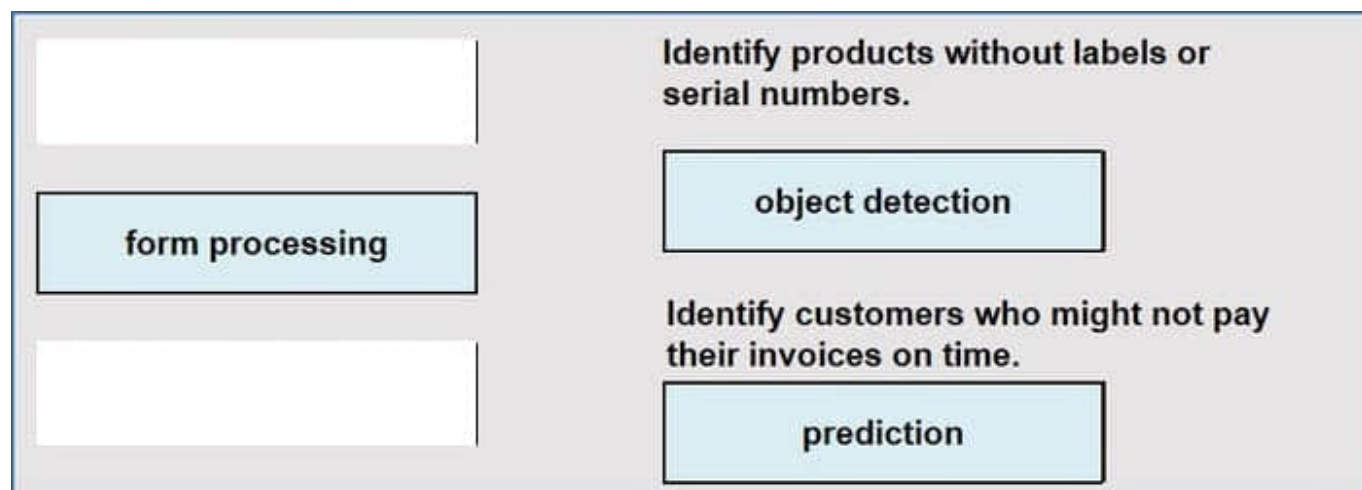

view content.

NOTE: Each correct selection is worth one point.

Select and Place:

prediction	<p>Identify products without labels or serial numbers.</p> <div style="background-color: #fff9c4; height: 40px; margin-top: 10px;"></div>
form processing	<p>Identify customers who might not pay their invoices on time.</p> <div style="background-color: #fff9c4; height: 40px; margin-top: 10px;"></div>
object detection	

Correct Answer:

Reference: <https://docs.microsoft.com/en-us/ai-builder/object-detection-model-in-flow> <https://docs.microsoft.com/en-us/ai-builder/prediction-overview>
